CEPECIAL TELEGRAM TO THE DISPATCH! FRANKLIN, November 14.—There was completed in the Civil Court here this morning a suit that has created great interest on account of the prominence of the parties and the romance connected therewith. It was the suit of the Commonwealth versus James S. Haggerty. The suit was brought by Haggerty's sons, who wished to have the father declared insane in order to prevent him disposing of his property, estimated to be worth \$20,000.

A few years ago Haggerty's first wife died, and in a very short time thereafter he fell in love with a very pretty young girl about one-third his age, but before she would become his wife, the defendant consented to leave his property to her. It is claimed that the sons, fearful of losing what would be their share of the property at the father's death, brought the above suit to prevent him transferring it to his new wife. The wife had already received \$6,000 in lieu of a dower interest, but the sons were afraid she was after the balance. After considering the evidence, the jury this morning returned a verdict finding James S. Haggerty insane since November 1, 1888. There are several line points of law connected with the case, and the Supreme Court will be given a chance to consider them. All the parties reside in Emlenton.

#### THE FIRST BISHOP.

#### The Historical Society Held Another Interesting Meeting.

At the meeting of the Historical Society Father A. A. Lambing read an interesting paper on "The First Bishop of the Northwestern Territory." He stated that Cincinnati was selected as the episcopal city, and Rev. Edward Fenwick as the Bishop. He was consecrated in 1822, and at that time the diocese embraced Ohio, a part of Michigan and Northern Wisconsin. Bishop Fenwick died at Wooster in 1833, of cholera, contracted in the lake regions while trying to Christianize the Indians.

J. C. Porter read a paper on "Baseball," so called because it contained nothing what-ever of the subject, being a review of imper-

tant historical events which had no connection with the great American game.

Mr. McCandless then read a paper on "A Tramp Through Westmoreland County in 1856." His paper was brief, but contained several picturesque descriptions of the country, and embraced a little Indian romance. A committee, consisting of Messra Porter, Marshall and McCandless, was appointed to draw up a resolution on the death of Will-iam M. Darlington, which occurred about two months ago. Another committee, consisting of Messrs. Marshall, Porter and Eaton, was appointed to find if it were possible for the society to engage a room at the Carnegie Library building, in Allegheny, when that is complete, to meet in.

Daniel says that he favors the Australian system, with certain modifications, but he declines to say what the modifications are. —B. Knapp, a vineyard owner of Napa, Cal., says that all raisin growers who have not signed contracts for this year's crop will make small fortunes. "The crop of the Province of Malaga," said he, "has fallen off in half a dozen years from 1,900,000 to 700,000 boxes, and the shipments to the United States have declined from 1,000,000 to 12,000 boxes. This shock struck the market after most of the Malaga crop had been disposed of, "hus leaving a large deficiency, hard to over-ome."
